Classroom News Growing and Plants

During this month, we will be observing plants closely, learning the names of plants and their parts, discovering the basic needs of plants, finding out how living things depend on each other and gaining respect and appreciation for our natural world. We will learn that plants are important to people and animals so we have to take good care of our planet. We will learn about the different plant parts; the roots, stem, leaves and flowers. We'll talk about the importance of water, sunlight, air and soil for plant growth. Our preschoolers will develop:

- Speaking skills by talking about what they have done and are doing.
- Art skills by drawing pictures of plants and gardens.
- Math skills by sorting plants and counting number of plants, leaves, flowers and flower petals.
